LIGHT DUTY ORDER PICKER

4.2m Platform Height.

400kg Unit Capacity.

Flashing Safety Light and Alarm.

Safe & Secure Operator Compartment.

Forklift License Required.

SIDEWINDER **XF165**.

The TASK® Sidewinder® XF165 is an exciting new model designed and engineered by TASK Forklifts for light-duty order picking. The XF165 uses standard Class 2 carriage forks, and tried and tested technology to create one of the safest, easiest to use, innovative stock pickers on the market.

The Sidewinder® XF165 has been upgraded to include improved proportional controls, USB port for charging handheld devices such as tablets, mobiles and bar-code guns, reversing camera, and maintenance free, opportunity charging battery system.

No need for dangerous ladders, steps and stools. No need for a large heavy-duty stock pickers. The Sidewinder® XF165 utilises a "I" beam three stage forklift mast, to offer exceptional stability.

The electric power steering allows operators to maneuver the Sidewinder® XF165 in even tighter spaces, and the functional, dual-hand operating system provides full control of the unit. This unit is perfect for small volume order picking and restocking.
